ANSHIKA BHANOT

London, UK | +44 7723705401 | anshikabhanot03@gmail.com | Linkedin | GitHub

EDUCATION

Bayes Business School, London | M.Sc. Business Analytics *Sept 2025 – Sept 2026*
Machine Learning, Advanced Predictive Analytics, Applied Deep Learning, Revenue Optimisation & Pricing, Data Management Systems (SQL), Network Analytics

Delhi University, Delhi | B.Com *Nov 2021-Jul 2024*
Business Mathematics & Statistics, Fundamentals of Investment, Financial Management

EXPERIENCE

XChange Markets
Data Analyst *Jun 2024 – Aug 2025*

- Built and maintained analytical data pipelines in Snowflake, transforming raw user trading and market data into structured datasets for reporting, trend analysis and business insights
- Developed time-series analysis and validation frameworks to assess performance trends over time, improve data reliability and reduce analytical bias improving stability of reported metrics by ~15%
- Streamlined recurring data updated and reporting pipelines, reducing manual intervention and accelerating delivery of insights by ~30%

Fraud Detection System – Real-time Risk Scoring Model (GitHub | Streamlit) *Jun 2026*

- Built an end-to-end fraud detection system on highly imbalanced credit card data, focusing on minimizing financial loss over accuracy.
- Achieved strong performance with XGBoost (PR-AUC ~0.86, ROC-AUC ~0.98, recall ~0.88) and deployed a real-time Streamlit dashboard.
- Tech Stack: Python, Scikit-learn, XGBoost, Pandas, Streamlit

Market Event Study – IBM Acquisition of Confluent Inc (GitHub) *Jan 2026*

- Conducted an event study on IBM's $1.3B acquisition of Confluent Inc., using an S&P 500 market model to isolate abnormal stock returns around the announcement.
- Estimated statistically significant positive CAR of 5.10% for IBM and 3.90% for CFL indicating strong market approval of the deal.
- Tech Stack: Python (pandas, numpy, statsmodels, scipy.stats), Jupyter Notebook.

SKILLS

Languages: Python (Pandas, NumPy, Scikit-learn, Statsmodels, SciPy), SQL, R
Tools & Frameworks: MLflow, Snowflake, Tableau, Power BI, Excel (Pivot Tables, VBA), Docker, Git
Applications: MLOps, deep learning, predictive modelling, time-series forecasting, feature engineering, A/B testing, hypothesis testing, drift detection, data visualisation

CERTIFICATES

Quantium Data Analytics Job Simulation (Forage), **Citibank** Investment Banking Job Simulation (Forage), **AmplifyMe** Asset Management Simulation

EXTRACURRICULARS

Vice President, **Zeal Dance Society, Maitreyi College, Delhi, India** *Nov 2021 - Jul 2024*
Managed annual budgeting and funding allocation for a 50+ member competitive dance team, while curating vendor/sponsor relationships across multiple national-level events.

Digital Marketing & Analytics Intern, **GStudios India, Delhi, India** *Oct 2022 - Mar 2023*
Analyzed Meta and Google Ads performance, social media content trends, and website funnel data to optimize budget allocation, identify audience preferences, and provide data-backed recommendations to improve campaign ROI and user conversion during course launches.
